

# Moonglow campout

XAVIER GALLEGOS/Tucson Citizen

**CLOSE EXAMINATION** — Two participants in the University of Arizona's annual astronomy camp got a good look at the moon last night with a pair of telescopes on Mount Lemmon. Kim Lueder, 16, of Rochester, Minn.,

(left) and Layla Bevan, 13, from Colorado Springs, Colo., (right) were among the participants. The weeklong camp, sponsored by the UA Alumni Association, teaches youths from 13 to 16 about astronomy and nature.
